EDUCATION

Amrita Vishwa Vidyapeetham

Bachelor of Technology in Computer Science and Engineering; CGPA: 7.59

Fiitjee Junior College

State Board; Percentage: 91.1

Coimbatore, TN

Aug 2023 – Aug 2027

Hyderabad, TG

2021 – 2023

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, HTML, CSS

Frameworks & Paradigms: Node.js, Express.js, Full Stack Development, Design Patterns, OOP

Hardware & Embedded: STM32 Microcontrollers, Digital Electronics, Embedded Systems

Tools: Git, GitHub, VS Code

Interests: Machine Learning, Web Development, UI/UX Design

PROJECTS

Emergency Response Dispatch System | *Data Structures, Graphs, C++/Java*

- Built a city-scale emergency response simulation using graph theory with locations as nodes and routes as weighted edges.
- Implemented Dijkstra's Algorithm with priority queues to minimize dispatch time based on distance and severity.
- Optimized real-time lookup and tracking using hash maps.

Embedded Facial-Attribute Analysis System | *STM32, ESP32, WiFi, Python, ML*

- Built a hybrid embedded system using STM32 + ESP32 to perform real-time facial attribute detection (Age, Gender, Race, Emotion).
- Implemented USART-based MCU communication, WiFi image transfer, host-side ML inference, and I2C display with buzzer feedback.

Autofy – Academic Workflow Automation Platform | *MERN Stack*

- Developed a SaaS automation platform with drag-and-drop workflow creation for managing exams, tasks, and assignments.
- Integrated MongoDB CRUD operations, dynamic form validation, and real-time dashboard visualizations.

Medical Secure Portal | *Security, Web Technologies*

- Developed a HIPAA-compliant medical records system with AES-256 encryption and digital signature verification.
- Implemented TOTP-based multi-factor authentication and role-based access control.

Thermostat Fire Detection System | *Embedded Systems, Sensors*

- Designed a temperature-sensitive fire detection system that triggers automated alerts when safety thresholds are exceeded.

VISUAL IMAGE SIMILARITY INTERPRETATION APPROACH FOR DETECTION OF PHISHING SITES WITH EXPLAINABLE AI

EXTRA-CURRICULAR ACHIEVEMENTS

- Won **1st Place in Skit Competition** during Gokulashtami Celebrations.
- Participated in multiple cultural and college-level events.
- **Anokha Events Head – CSE**, responsible for planning and managing departmental events.
